

Worldwork Series and the Worldwork Dojo 2018-2019

We are excited to start two new courses, the 'Worldwork Series' and 'The Worldwork Dojo'. Over the years we are often asked by new and former participants for places to gather to study and practice together. These courses can be taken as a full series, and individually, as space allows.

Worldwork Series

In the Worldwork series, we will study difficult moments, entanglement and phases of conflict and conflict resolution, as well as moments of transformation and creativity in community, using film and live study of casework from your organisations and communities. In each seminar, we will research and study processes and interventions through a different lens.

1. February 5-6 2019

Getting Activated

We will study dynamics at hot spots and points of activation, around personal and collective trauma and open issues of accountability, and study 'phases' of conflict and corresponding interventions.

2. March 5-6 2019

Getting Altered – frozen and altered states

We will study a range of dynamics around blocks and frozen states in group life, including collective frozen states, and the facilitator's process and how it reflects the wider system dynamics – and altered states as a pathway out of the old system.

3. April 9-10 2019

Getting Wiser

We will study a range of dynamics around divisive, locked and entanglement processes, and the 'elders' role in holding the pot, and adding a pinch of salt or spice.

Worldwork Seminar Series Registration

The Worldwork series was designed for alumni and current students of CFOR programmes and Processwork UK students, as well as facilitators, teachers, community activists, educators, artists interested in integrating concepts and skills from worldwork methodology into their current practice.
